About vmedulife Software

vmedulife Software is providing integrated cloud LMS software used by millions of users. We have built great software and excellent client services.

Now for further achievements, we are looking for more team members who are self-driven, skilled, and excited to join the vmedulife team soon. Come to work in a growing company that offers great benefits with opportunities to advance and learn.

We are looking for a skilled **React Js Developer** to join our Development Team. In this role, you will be responsible for developing and coding all server-side logic and implementing user interface components. You will also be required to maintain the central database and respond to requests from front-end developers.

Job description:

Responsibilities:

- Understanding application requirements and interface designs.
- Identifying user interactions.
- Developing and implementing highly responsive user interface components using React concepts.
- Writing application codes using JavaScript following React.js workflows.
- Developing and implementing front-end architecture to support user interface concepts.
- Monitoring and improving front-end performance.

An **ISO 9001:2015** Certified Company.
Recognized by **Govt. of Andhra Pradesh** under Innovation and Startup Policy.
Recognized by DIPP, **Ministry of Commerce & Industry, Government of India**.
An Official Industry Associate of SCGJ, **Government of India**.
Official **Member of NASSCOM**.

- Documenting application changes and developing updates.

Requirements:

- Bachelor's degree in Computer Science, Information Technology, or a similar field.
- **Minimum 2-year experience** as a React.js Developer.
- In-depth knowledge of JavaScript, CSS, HTML, and front-end languages.
- Experience with user interface design.
- Experience with browser-based debugging and performance testing software.
- Excellent troubleshooting skills.
- Good project management skills.
